

Introduction

Congratulations on your scholarship from the Eindhoven University of Technology (TU/e) Amandus H. Lundqvist Talent Scholarship Program (ALSP)!

Each year, partnered by top international technology companies and institutes in the Eindhoven region and the rest of the Netherlands, the TU/e awards a considerable number of ALSP scholarships.

ALSP scholarships are for five-year programs: two years studying for your Masters degree at the TU/e followed by three years working at an international organization. To enable you to participate in the two-year Masters program at the TU/e, the following costs are reimbursed:

- a tuition fee waiver for two academic years (24 months)
- a contribution to the costs of living in the Netherlands of €5,000 per academic year.

After you have completed your Master program you work for at least three years in the Netherlands. We organize a match-making event to help you find a company that suits you and where you can work after you have graduated. We fill in the name of the company in your scholarship agreement.

Match-making event

In the first semester of the first year of the Master program, we organize a match-making event for all first year international scholarship Master students and high-tech companies from the region. You will be invited to this event. During the event as many students as possible are matched to a company that suits them. The university will do its best to guarantee a match with an suitable company.

If several companies are interested in you, you will be able to choose which scholarship you accept. Students who do not match with a company are awarded a TU/e scholarship.

High-tech region

The companies that participate in the Talent Scholarship Program are high-tech multinationals from the “Brainport” region. Brainport Eindhoven is one of the most innovative technological centers in Europe. In 2011, it was even declared one of the seven cleverest regions in the world. You can find more information on this at www.eindhoven.eu or www.brainport.nl.

The scholarship agreement

Attached you will find the scholarship agreement. It has two parts. The first part you receive now and you sign this before you come to the Netherlands, i.e. before the start of the first year of your Master program. Part I of the agreement is valid throughout the whole Master program. The second part of the agreement concerns the scholarship that you will receive from a company or from the TU/e after you have arrived in the Netherlands and attended the match-making event. It will then be clear if you are eligible for a TU/e scholarship or a company scholarship

We request that you sign this agreement and send it back before **15 May 2013** to secure your scholarship.
