Dear Mr A. Grigorev,

We have received your online application and documentation for admission to a Master's program at the Eindhoven University of Technology (TU/e).

However the following documentation was missing from your application:

- description of bachelor subjects - This is the description of subjects provided by the university. If the university does not provide a description of subjects, students should write a description. The description should be one or two lines of each subject you took during your bachelor education, giving the title and contents of the subjects of the Bachelor program. You can find an example in the attachment. Make sure this document doesn't exceed the 20 pages limit.

- a summary of your dissertation in English. We only require a short description of your final year project (1 or 2 pages is enough).

You are allowed to send both documents though email to speed up the process.

If you wish to continue with your application, please supply us with the missing documentation as soon as possible. In all correspondence with the TU/e concerning your application, please mention your application

number: **36777**.

Kind regards,
